MAY 2021

Goshen County Weed & Pest NEWSLETTER

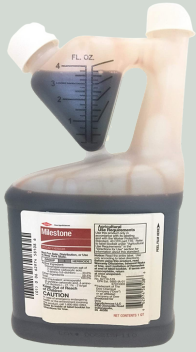
HERBICIDE OF THE MONTH

DURACOR®/MILESTONE®/GRAZONNEXT®

Aminopyralid is the active ingredient in the GCWP herbicide of the month. The selective herbicide is used for controlling broadleaf weeds, clovers and thistles. Unlike April's newsletter, these post-emergent herbicides control the plant, including the roots, and offers soil residual for better control. Aminopyralid herbicide family focuses on range and pasture land while allowing for a lasting effect on treated areas, with its very low toxicity to birds, fish, mammals and aquatic invertebrates.

Rate: 5-7oz per acre

Carried in *2.5 gallon and 1 quart containers*



Non-restricted

Milestone® is labeled to control a number of tough annual, biennial and perennial broadleaf weeds, including noxious and invasive species, and certain woody plants.

Rate: 19-34oz per acre

Carried in *2 gallon container*

Simple, convenient weed control

GrazonNext® tough on hard-to-kill perennials, including Canada thistle. Targets post-emergent control of broadleaf weeds and stays on the job all season long with its residual activity.

Rate: 12-20oz per acre

Carried in 1 *gallon container*

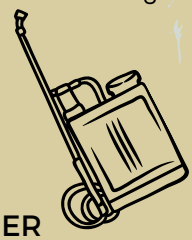
Low use rate

DuraCor® herbicide allows for low use rates, low-odor formulation, with no grazing restrictions. Allows native and beneficial grasses to thrive, providing residual control.

RENTAL EQUIPMENT

Do you have a small scale project to get done, but lacking the proper equipment? Rent the needed equipment from us, call for rental pricing.

ATV SPOT SPRAYER
15 gallon tank with 15 feet of hose with a lever handgun.



BACKPACK SPRAYER
3 gallon backpack sprayers.

MOSQUITO FOGGER
ULV fogger unit is used in the back of a pickup or UTV to control mosquitoes.

Visit our website for more information on our rentals.

SPRAYING SERVICES

GCWP offers spraying services on your property for control of designated and declared weeds. In order to participate in this service, we will need to evaluate the situation and determine the best management method prior to spraying.

Please contact us if you are interested in hiring GCWP to control noxious weeds on your property!
